

## **Traffic Flow At Sherburne Park and Boat Ramp**

Direction of traffic flow to the boat ramp below Sherburne Park will be changing in the very near future. You many have already noticed that parking below the steps has already been changed. The direction of traffic will be reversed. The entrance will be off College and vehicles will exit on Main Street.

Please watch for the directional signs. The purpose of this change was to reduce congestion as people launch their boats. Please use caution as everyone adapts to the changes.
